PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer and AI-Powered ERP Specialist with 6+ years of experience delivering enterprise-grade ERP systems, API integrations, and cloud solutions using ASP.NET Core, C#, and Azure across healthcare, retail, and manufacturing sectors. Actively leverages AI-assisted development tools including GitHub Copilot, Cursor, Claude, and OpenAI Codex to accelerate delivery, improve code quality, and drive R&D innovation. Proven track record of building secure, high-performance applications using JWT, OAuth 2.0, Microservices, and SOLID Principles. Currently expanding expertise in Blazor, React JS, and Azure Cloud platforms.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Feb 2026 – Present

SPARK • Full-time • Kingdom of Bahrain (Remote)

- Built and customized CMS-based solutions using Umbraco CMS, reducing content deployment time by 40%
- Developed scalable web applications and RESTful APIs using ASP.NET Core, async/await, and C# serving 10,000+ users
- Optimized SQL Server databases with complex stored procedures and indexing, improving query performance by 35%
- Implemented CI/CD pipelines using Azure DevOps, Jenkins, and GitHub Actions, cutting release cycles by 50%

Senior Software Engineer — Nov 2024 – Feb 2026

Neogen (US-Based) • Remote, Lahore, Pakistan

- Led development of medical ERP system for 200+ healthcare users ensuring full compliance with security standards
- Implemented JWT-secured third-party API integrations with custom ASP.NET Core software installers
- Integrated QuickBooks Online (QBO) and Stripe, automating billing workflows and reducing manual effort by 60%
- Built Install Shield-based installers enabling seamless hardware-software communication across 50+ client sites

Senior Development Engineer — Nov 2023 – Nov 2024

SSC • Lahore, Pakistan

- Developed automated Damage Receipt System (DRS) integrated with Microsoft Dynamics 365, reducing processing time by 45%
- Built Windows services with Shopify and Daraz API integrations handling 1,000+ daily e-commerce transactions
- Designed analytical reporting tools using Dynamics 365 enabling data-driven forecasting for 5 business units

Software Developer — May 2021 – Nov 2023

Sef Tech (Sefame Limited) • Lahore, Pakistan

- Developed restaurant automation ERP system using ASP.NET MVC serving 30+ branches with real-time reporting
- Built end-to-end supply chain management covering LE1 and LE2 manufacturing levels for 3 production facilities
- Led migration of 5 legacy Windows desktop applications to scalable web applications
- Implemented Efficiency Monitoring Portal with advanced SQL reporting, improving KPI visibility by 70%

.NET Developer — Jun 2020 – May 2021

Amz International • Lahore, Pakistan

- Maintained and enhanced comprehensive ERP system with 10+ modules comparable to SAP and Dynamics 365
- Contributed to HR, Task Management, Inventory, and Financial Accounting modules for 100+ concurrent users
- Participated in migration from ASP.NET MVC to .NET Core and Angular, improving performance by 30%

Backend Developer & .NET Developer — Dec 2019 – Jun 2020

SSIT • Lahore, Pakistan

- Developed OAuth 2.0-secured APIs and web applications using ASP.NET MVC for the medical sector
- Built home healthcare service platform enabling providers to manage services for 500+ patients

TECHNICAL SKILLS

Languages & Frameworks	C#, VB.NET, ASP.NET Core, ASP.NET MVC, .NET Core, Blazor, React JS, Angular, TypeScript, LINQ, async/await, SignalR, REST APIs
Architecture & Patterns	Microservices, SOLID Principles, Design Patterns, MVC, Entity Framework, ORM, Domain-Driven Design
Security	JWT, OAuth 2.0, ASP.NET Identity, Role-Based Access Control (RBAC), SSL/TLS, Security Best Practices
Cloud & DevOps	Microsoft Azure, Azure Functions, Azure DevOps, Docker, Kubernetes, CI/CD, IIS, GitHub Actions
Database & Analytics	SQL Server, Redis, Stored Procedures, Database Design, Power BI, Reporting Services, Data Analytics
CMS & Integration	Umbraco CMS, Shopify, Daraz, Stripe, QuickBooks Online, Microsoft Dynamics 365, SOLIDWORKS API
AI-Assisted Development	GitHub Copilot, Cursor IDE, Claude (Anthropic), OpenAI Codex, ChatGPT, AI-Driven Code Review & R&D;
Testing & Methodology	Unit Testing, xUnit, NUnit, Scrum, Agile, Sprint Planning, Visual Studio, Git, Install Shield

CERTIFICATIONS

Microsoft Azure Fundamentals — AZ-900	In Progress • 2026
Microsoft Azure Developer Associate — AZ-204	Planned • 2026

KEY ACHIEVEMENTS

- Leveraged AI tools (GitHub Copilot, Cursor, Claude) to accelerate ERP development cycles and improve code quality
- Delivered medical ERP system meeting strict healthcare compliance standards for 200+ users across multiple facilities
- Led migration of 5 legacy Windows applications to modern web applications, reducing maintenance costs by 40%
- Integrated Shopify and Daraz platforms handling 1,000+ daily transactions with zero downtime

EDUCATION

Bachelor of Science in Computer Science (BSCS) — 2015 – 2019

University of South Asia • Lahore, Pakistan
